TO WHOM IT MAY CONCERN

This is to certify that **Mr. Subash Sigdel** has successfully completed six-month-long internship in the role of research and development intern at Robotics Association of Nepal. The duration of the internship was from 22nd May 2022 to 27th November 2022.

His role was to research learn and teach others. He spent a significant amount of time in researching in various areas of machine learning and Artificial intelligence. Alongside the part of research, he was involved in frontend development focusing on react js framework. He developed the real time face attendance system using raspberry pi and a website where we can control view the attendees list time and name. He has also researched on NLP chatbot system and published a documentation of it.

Mr sigdel is a diligent individual and particularly inquisitive.We hope his time spent at Robotics Association of Nepal was fruitful. We wish him all the best in his future endeavours.

Sincerely,

Er.Bikash Gurung
President, Robotics Association of Nepal[RAN]
